To whom it may concern;

First Fitness Consultants are cash flow specialists who increase memberships for Health and Fitness facilities throughout North America.

Szar Communications came into our company and analyzed and reviewed all our telecom services in early 2005. Szar Communications reviewed Local Services, Long Distance, Toll Free, and Internet Services. They recommended some changes and assured us, in other areas, we were getting the best services for our needs. We are in a Verizon Local Area and Verizon indicated, prior to Szar Communications, they didn't have appropriate copper facilities. Szar Communication's expertise came in and had no problem resolving our facility issue. The overall reduction of telecom cost was over 40%, even though we added some better services to assist our efficiency and grow our business.

Szar Communications organized our inventory of services, kept all of our contracts in order, and outlined the pertinent information to us in a simple Service portfolio.

Szar Communications has met our expectations in this completed project. We have continue to contact Szar Communications for a few upcoming projects, for example Development of our Web Site, helping us market our business a little stronger, and looking at logistics to our office flow.

I would recommend this consultative approach from Szar Communications to anyone in business.

Sincerely,

David K. Guertin  
President
